

The Artistry of Regina Salomon

If you appreciate the beauty and quality of decorative arts, then take advantage of this opportunity to order your porcelain pieces exclusively designed for you by Regina Salomon directly through Reliable Gold.

Regina's designs are classic and elegant – never going out of style. Most importantly, Regina knows how to reflect your personal taste and color choices in her porcelain pieces so that they complement your décor perfectly.

An accomplished artist who perfected her technique in Paris under the tutelage of Patricia Wiriath, a Museum of Sèvres instructor, Regina has incorporated the more challenging methods of gold relief applications and gilding into her porcelains.

Regina received the Silver Award at the International Porcelain Artists and Painters and the World Organization of China Painters in 2000 in Richmond, Virginia. The awarded piece was a small handled bowl with lid and plate, crafted in the traditional Sèvres style.

In 2002 Regina sold a collection of 52 pieces to Shreeve, Crump & Low in Boston. She has been continuously creating this fine artwork since 1997. Start your personal collection of Regina Salomon pieces today!
